

TEGO
Powering Assets with Intelligence

MROHistorian

Business Benefits and ROI Considerations

WITH MROHISTORIAN YOU CAN GENERATE VALUE ACROSS THESE AREAS:

COST SAVINGS

LABOR

- Minimize inefficient paper-based processes (**25% savings**)*
- Drive efficiencies in direct labor for maintenance and repairs

MATERIALS

- Extend useful life of materials and parts
- Identify most cost-efficient parts or component

INVENTORY CARRYING COSTS

- Reduce inventory of parts and components and its carrying costs**

OUTSIDE SERVICES

- Enable collaboration and eliminate inefficient paper-based exchanges

DELIVERY TIME AND QUALITY IMPROVEMENTS

TURNAROUND TIME (TAT)

- Reduce turnaround time by minimizing time for retracing documentation and part history

RELIABILITY

- Minimize warranty exposure by guaranteeing part pedigree

COST DRIVER CONTROL

- Increase number of jobs within scope, budget and deadline
- Minimize number of incomplete BOMS and late identification of needed repairs
- Reduce number of out-of-stock instances
- Minimize number of expedited part shipments

Do you have an estimate on the size of your potential savings and benefits? Contact Tego to validate your ROI with Tego MROHistorian at contact@tegoinc.com.

* Based on Deloitte, *Smarter MRO*; Estimated at 50% efficiency improvement on 50% of labor for paper-based processes.

** \$300 million average carrying inventory in the aerospace industry.
